To Whom it May Concern,

I was referred to Tammy King by a film industry colleague to translate a screenplay in January 2008. The translated screenplay from Hebrew to English that was submitted to me by Tammy was highly professional, as if originally written in English. Her meticulous attention, her knowledge of the rules of screenplay formatting, our creative cooperation in terms of the essence of the screenplay and my desires as to the final product greatly contributed to our work together as non Israelis to whom the screenplay was submitted will testify.

Her love of cinema and the art of translation are extremely evident in her expert work.

I wish us fruitful mutual cooperation on future projects.

Sincerely,

Eitan Even – Producer

Evanstone Films Ltd.
